

The team of ForestFinest Consulting has more than 20 years of experience in the development and management of high-quality agroforestry and forest projects in the Tropics and in consulting on land use concepts.

Within the frame of the implementation of a large-scale, mechanized cocoa cultivation project in the Dominican Republic we are, on behalf of a client, seeking for a Plantation Chief Officer to support the on-site implementation of the project (800 ha).

Chief Plantation Officer

Job description

Under the responsibility of the General Manager, the Chief Plantation Officer intervenes in a transversal manner on the different activities of the plantation:

- Responsible for the planning, organization of the crop protocol management and field operations.
- Monitoring and controlling of field activities on a daily, weekly and monthly basis.
- Human resources management.
- Follow-up of dashboard tools for activity planning, organization and monitoring.
- Fertilization, phytosanitary and research development follow-up.
- Plantation budget establishment and cost and profit follow-up.
- Support the procurement of planting material, inputs, equipment and infrastructure.
- Reporting to the General Manager on a daily, weekly, monthly and yearly basis.

The position is based in Bayaguana, Monte Plata, Dominican Republic.

Needed qualifications

Young professional, strongly motivated, and willing to gain a great experience in tropical crop production, the candidate should present the following profile:

- B.Sc. or M.Sc. in agronomy engineering or similar qualification.
- Min. 1 years of practical experience on similar positions.
- Technical affinity and analytical skills, cost awareness.
- Experience in tropical systems beneficial, but not obligatory.
- Experienced in internet-based communication and MS Excel program.
- Good language skills in English and Spanish (Mandatory).

Further Information

Non-Fixed term contract; Workplace will be in Bayaguana, Dominican Republic; Company car and company phone provided; Salary to be negotiated.
