

ForestFinest Consulting (FFC) is a leading international consulting firm. With our 30+ team members in ten countries we support companies, investors and cooperatives in the development of sustainable agricultural and forestry projects. The core activities of FFC are the conceptualization, management and certification of land use projects as well as carbon trading. Through its division CO2OL (www.co2ol.de), FFC offers companies effective solutions for climate protection. Our CO2OL-consultants develop individual climate protection strategies which include the calculation of GHG emissions, recommendations on how to reduce carbon footprints and/or advice on insetting/offsetting through certified climate protection projects.

To support our team's mission to proactively promote climate protection, we are looking for a

Natural Carbon Project Expert

Job description

- Sourcing and assessment (including financial due diligence) of Natural Carbon Projects (REDD+, A/R, Blue Carbon etc.)
- Elaboration of project design documents, project implementation, and support of carbon certification cycles
- Responsible management of our existing project [portfolio](#) to meet the credit demand of our corporate clients in quality and quantity
- Gathering intelligence about market trends, relevant regulation and policies

Your profile

- University degree in economics, resource management, forestry, agriculture or related field
- At least 3 years professional experience in sustainable land use and carbon markets
- Proven experience of simultaneous management of different projects in an international team
- Experience in the preparation of business and financial plans for natural carbon projects or similar (e.g. renewable energy)
- Fluent in English and Spanish or French, additional languages are an advantage
- Willingness to travel
- Professional experience in Latin America, Africa or South-East Asia is an advantage

What we offer:

- Collaboration in an international interdisciplinary and dynamic team
- Exciting field of work at the interface between business and climate protection
- A casual work environment with impact
- A comprehensive introduction to our team and processes while providing the space to develop your own solutions – new ideas are expressly welcome
- Remote work possible upon preference
- Regular training and capacity building

The position is entitled as full-time. The contract can be structured as a freelance or permanent position depending on the circumstances. Workplace in the European Union preferred / Latin America possible. Starting date as soon as possible. We look forward to receiving your application in English with CV, a description of your expertise & salary expectation via e-mail to jobs@forestfinest-consulting.com.
